

*Hi there!*

*My name is Jordi Poch and my voice is my job.*

*I use it to make myself be listened to and try to make the audience choose the products or services I advertise.*

*I also work with my hands. Recording and mentoring of voices, editing, mixing... and I do all this from my recording studio in Spain ([www.estudiopoch.com](http://www.estudiopoch.com)) where I'm based.*

*And above all, I work with my brain, seeking to bring audio creativity to resolve and deliver a good final audio script, proposing ideas that will make the message work when broadcasted.*

*This way, using my voice, hands and brain, I have become an established and solid professional.*

*And over the years, my trade has made customers trust my work. Once a customer told me something really nice: "Besides your amazing techy skills, you always deliver an especial extra something: your willingness and enthusiasm when undertaking any job".*

*So here I am. Offering you my voice, all my professional experience. And above all, wishing to deliver a great job.*

*Best, Jordi*

## **Highlights**

Versatile, warm, corporative, clear, natural, trustworthy, reassuring...

Voice over ranges:

Warm and deep aimed for documentaries and story telling / natural and clear for eLearning and presentations / corporative for institutions and government pieces / soft, confident, cool lifestyle and trendy products / energetic, strong and friendly for commercials ad promos. Remarkable ability to perform and impersonate a wide variety of odd creatures and special/curious characters within a very broad age range.

Will respond your contact immediately every day in the week.

Always on call.

A "Get It Done" Attitude, and coupled with a highly "Perfectionistic" work ethic!

Service, service and service, with a friendly smile.

Fast turn-around, sometimes, in minutes.

An important feature of this voice talent is that offers you the complete equipment of a professional recording studio and post-production, without any additional cost to the prices specified in each budget. And the possibility of connection for direct recording via ISDN.
